PDF Coordinate Conversion
For placing Annots and Fields

By Thom Parker, WindJack Solutions, Inc.

This sample was created with Power Point® so it is both rotated (landscape) and cropped. It is a demo version so the scripts will not work on Adobe Reader unless it is enabled for both Forms and Commenting in Acrobat Pro 8.0

Pressing this button   places a Square Annotation around the BBox of the page.

Pressing this button   deletes the annot

Press this button   to place a field of type   over top of the   th   word on the page.

Press this button   to delete the last form field added.
